Important Information about updates in the barcode software
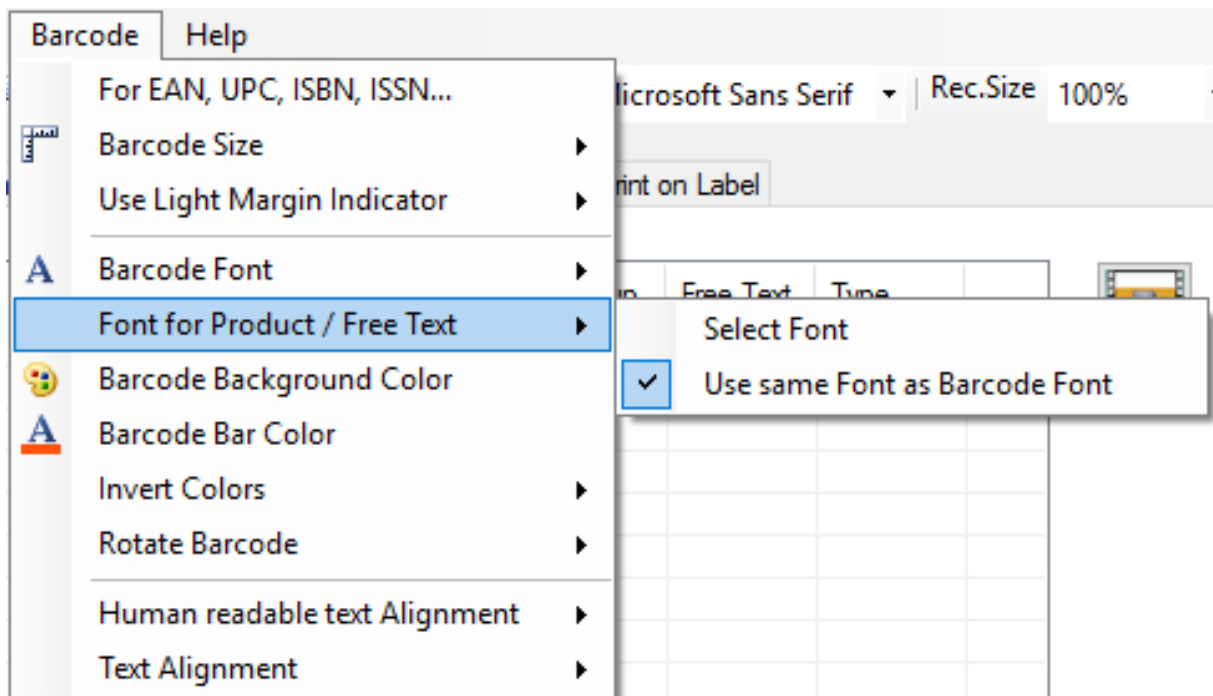

Please note that the information is for Barcode Image Maker Pro v4.10 and Barcode Maker v8.10* and Code Barcode Maker Pro v4.10*, Retail Barcode Image Maker Pro v4.10*. *Software doesn't support all barcodes or options shown in the document.

Font for Product / Free Text
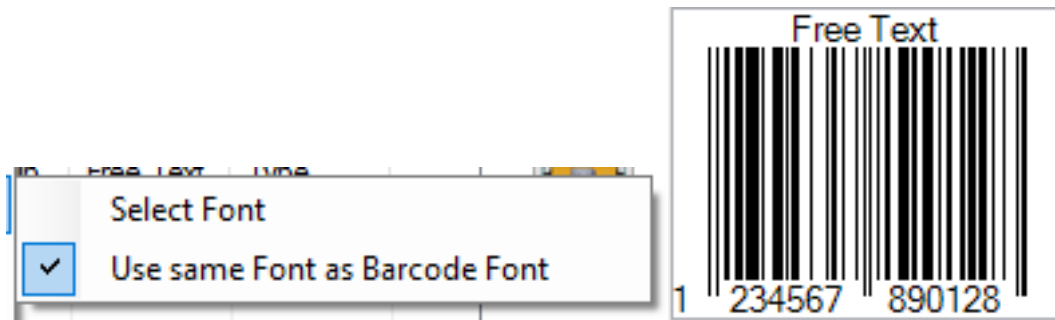

For the Retail barcodes.

As default the size for the barcode characters is no longer used for the Product or Free Text. This will impact on how the text is added. So please make sure that you check how your design looks before printing on labels or saving an image.

If you would like to use the same font for the Product / Free Text as is used for the barcode characters, please use the 'Use same Font as Barcode Font', please look at the image below. If the option is checked then it's the one that have been selected. If the option is not checked, then the font selected using Select Font, is going to be used for the Product / Free Text.

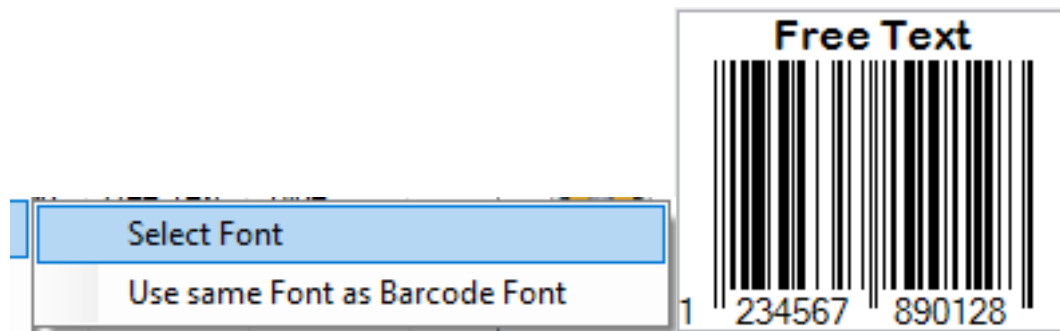

Use same Font as Barcode Font has been checked.

Use same Font as Barcode Font

When Use same Font as Barcode Font, the font used. Also font size, font style for the barcode is also going to be used for the Product / Free Text. Please look at the above images.
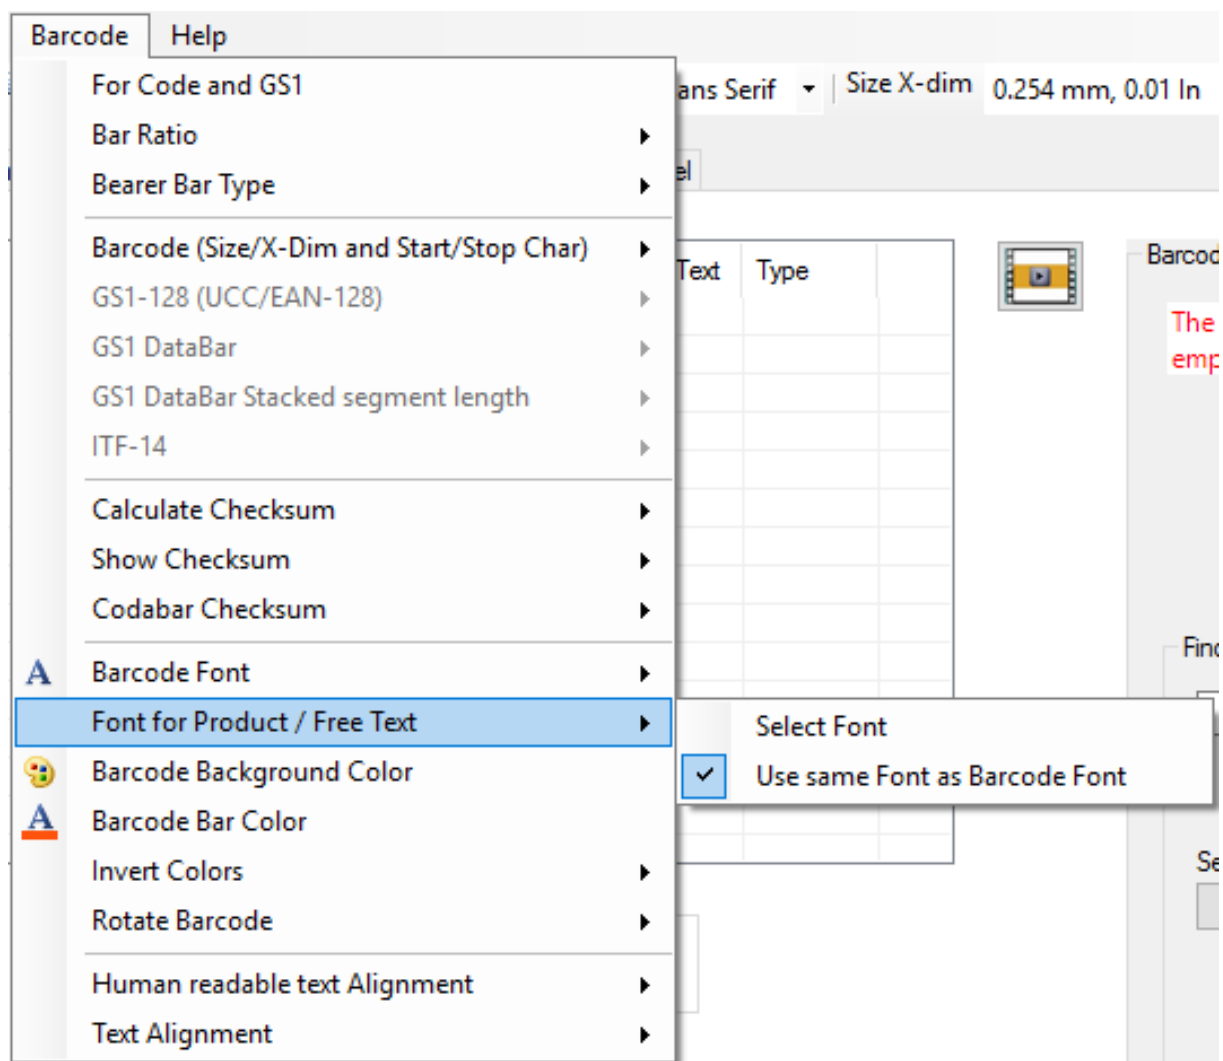

Select Font

When you click on the Select Font, you will be able to select a font, font size, font style for the Product / Free Text. Use same Font as Barcode Font, will be unchecked, not used. Please look at the above images.
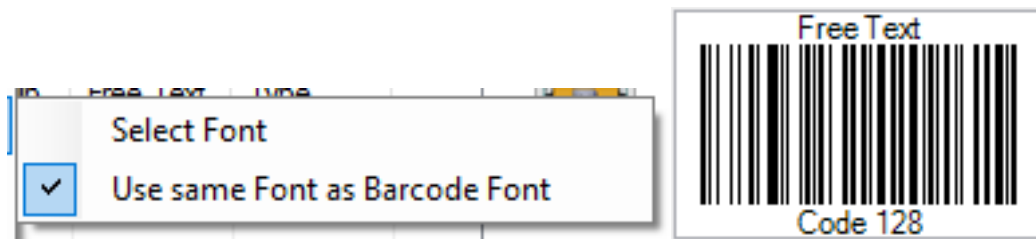

For none retail barcodes

If the option is checked then it's the one that have been selected. If the option is not checked, then the font selected using Select Font, is going to be used for the Product / Free Text.

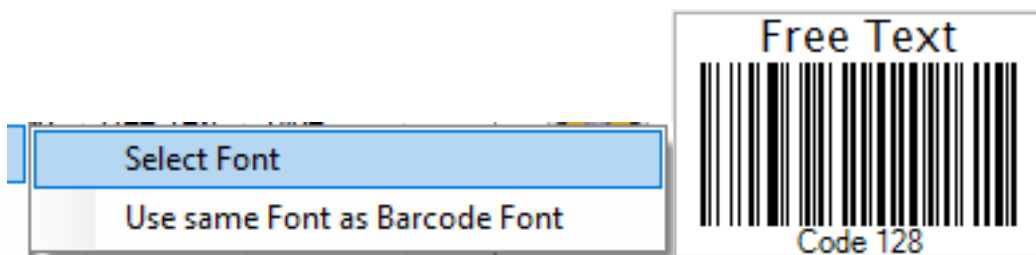

Use same Font as Barcode Font has been checked.

Use same Font as Barcode Font

When Use same Font as Barcode Font, the font used. Also font size, font style for the barcode is also going to be used for the Product / Free Text. Please look at the above images.
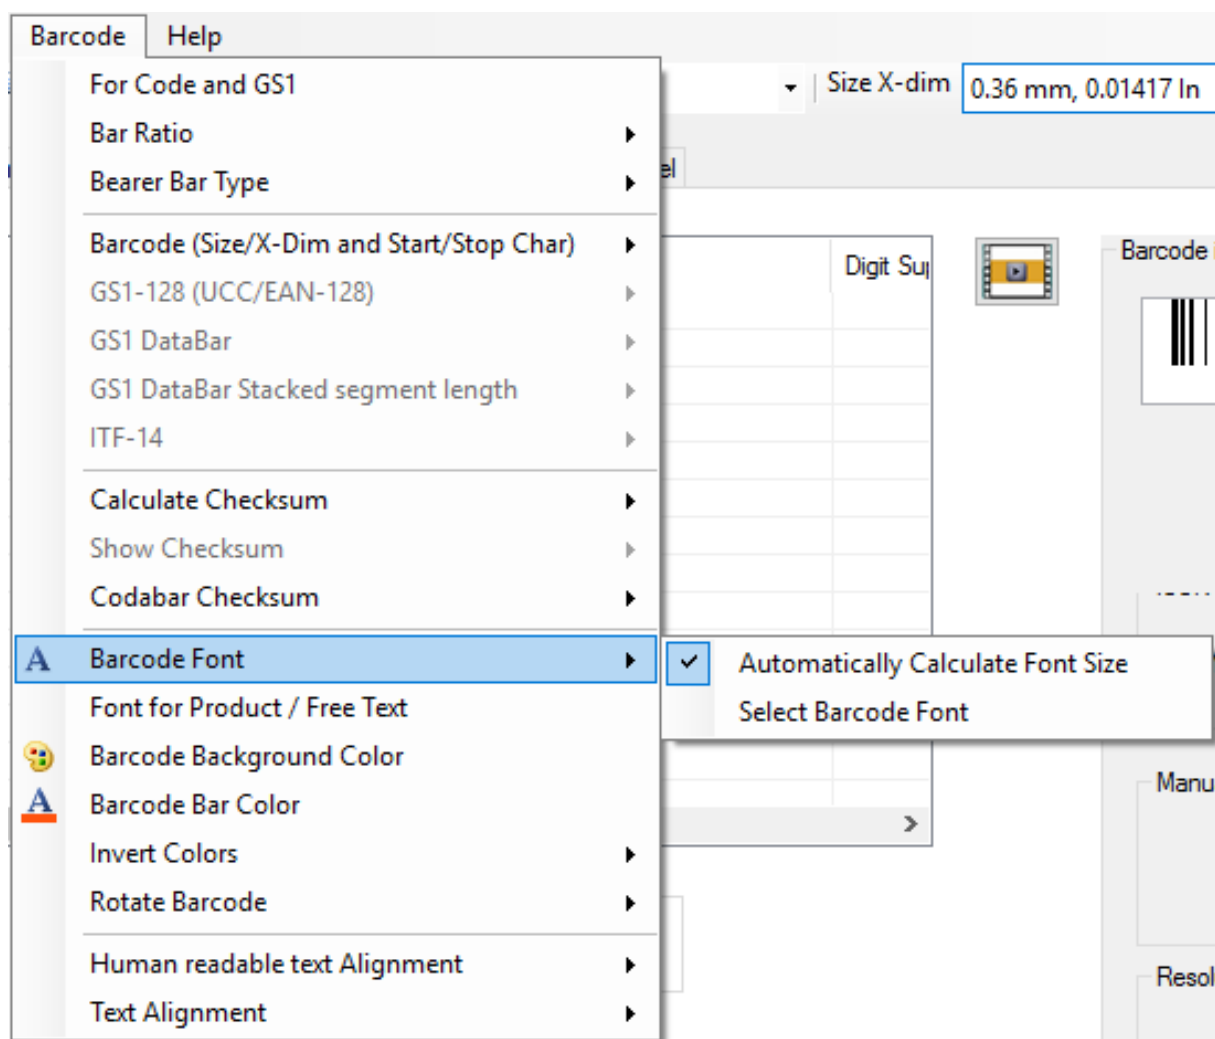

Select Font

When you click on the Select Font, you will be able to select a font, font size, font style for the Product / Free Text. Use same Font as Barcode Font, will be unchecked, not used. Please look at the above images.

Automatically Calculated Font Size

Now, none retail barcodes also have the Automatically Calculated Font Size, when the size of the barcode increase, so does the font for the barcode, that's the Human readable characters.

If you want to have a fixed size font for the Human readable characters, please click on the Select Barcode Font option.

Automatically Calculate Font Size has been checked.

The barcode is a Code 128 at 0.36mm bar width. The None Auto is 8pt and the Automatic is calculated and use an 11pt font.
