SHORTCUT MAP FOR CC FILE HIDDEN PROFESSIONAL 2016

* CC File Browser: Referred to the large panel in the middle of the CC File Hidden Application which helps the user to view, select and browse files hidden in CC File Hidden. Learn more about CC File Hidden User Interface at: Docs\UI.pdf or Docs\UI.xps

* Threat Reports: Ninponix CC File Hidden Pro 2016 is a password protected software. It gives you 3 tries to insert your password. If all 3 times are taken and are incorrect, you are forced to close CC File Hidden and the report is saved as a CC Threat Report including the Password Insertion Time, Inserted Password, and Accuracy Level (%). Learn more about Threat Reports at: Docs\ThreatReports.pdf or Docs\ThreatReports.xps

* Filter Tool: CC Filter Tool helps the user to filter the CC File Browser's File View, by giving different parameters such as File Formats. It is a combined integration with the Search Panel on the navigation bar in the top of the CC File Hidden Application. Learn more about Filter Tool at: Docs\FilterTool.pdf or Docs\FilterTool.xps.

* Import / Export Tool: In cases of using hidden files / sensitive data, users may have occasions where they have to transfer those files into a new computer, or to another computer owned by someone else. For this purpose Import / Export Tool can be used. Learn more about Import Export Tool at: Docs\ImportExportTool.pdf or Docs\ImportExportTool.xps.

* Chamuth Chamandana is the CEO and the owner of Ninponix ® Corporation, Sri Lanka. This software product is totally developed by Chamuth Chamandana Thilakarathne. Learn more about donations at: Docs\Donations.pdf or Docs\Donations.xps.

* Video Tutorials, PDF Documentation and Tutorials may vary depending on your location, the source of purchase / download and the release version of CC File Hidden.

* Customer Support is 100% FREE and not available 24/7. But our CC File Hidden Forum is available and filled with nerdy tech geeks and learners. Join it: Docs\Forum.url

* Purchase Verification is based on the Registration Key, provided by the product purchase website / source that you've contacted with.
