Acronyms & terminology:
- LSS: Local Standardized Services, consumer applications
- LOS: Local Open Services (SDK 1.0 only. SDK 2.0 not tested)
- NBOS: Network Based Open Services (EPLS/GPLS)
- not qualified: expected to work for demo/development purposes, but not qualified by Logitech
- N/A: not available

Notes:
1. basic GPLS support only, no EPLS support
2. password protection feature not supported
3. LOS support (LPLS API) has changed between SW1.xx and 2.xx and requires ASH adaptation (pen ID format)
4. Miscellaneous bug fixes vs 27.19
