

# Metronome EXP Pro Demo

Thank you for taking a look at Metronome EXP Pro! Please note that the Demo version of Metronome EXP Pro is intended for evaluation purposes only. As such it has had some functionality removed. To get a full, unrestricted version of Metronome EXP Pro you will need to purchase the software.

## Demo Restrictions

- The demo will only play for 2 minutes before stopping. However clicking the Start button will restart the Metronome.
- No settings can be saved. Everything is reset when the application is shut down.
- The demo comes with 9 built in presets to give an indication of the capabilities of Metronome EXP Pro. These can be altered while the application is running. However any changes made will be lost when the application is shut down.
- No new presets can be saved.
